## Underage and Out of Control: Youth and Alcohol

*The average age of first use of alcohol in New Jersey is now 11.3 years old.*

*Children who start drinking before age 15 are five times more likely to have alcohol problems when they're adults.*

**As leader of a Monmouth County faith community, we invite you to become a partner in Prevention First's vision to improve the lives of Monmouth County's children so they can thrive and grow to be strong, responsible individuals in any environment.**

**Please join us at the January 23rd workshop of the Clergy Advisory Committee where you will receive information about the current epidemic of underage drinking and learn how you can partner with us to bring prevention efforts and important information to your faith congregation and local community. Please also bring your youth minister/youth group advisor.**

✂

To register, send to B. Sprechman, Prevention First, 1405 Highway 35, Ocean, NJ, 07712, fax/732.663.1698. Please complete a separate form for each registrant.

Yes, please register me for the 1/23/08 workshop on underage drinking.
